

FOR IMMEDIATE RELEASE

Almo Premium Appliances Exhibits Luxury Indoor Appliance Firsts at the 16th Annual Architectural Digest Design Show

The nation's leading distributor of professional-grade luxury appliances unveils what's New, what's Hot and what's Now with the latest product introductions from Capital Cooking, Faber Ventilation, Liebherr Refrigeration, Sharp and SUPERIORE.

Philadelphia, PA – March 6, 2017 – Almo Premium Appliances, as part of its exhibition at the 2017 Architectural Digest Design Show, will feature a number of industry firsts and new product introductions from partner brands Capital Cooking, Faber Ventilation, Liebherr, Sharp and SUPERIORE by Tecnogas. During the show, March 16-19, 2017, at Piers 92 & 94 in New York City, the booth will feature exclusive and innovative products, including:

Capital Cooking

Debuting its one-of-a-kind 48" Connoisseurian range in hue Distant Blue, #5023 on the RAL color standard, this range was created based on projections of kitchen design and décor trends, positioning shades of blue as the year's choice accent colors in new homes and remodels. Capital ranges can be custom ordered in any RAL color making design possibilities limitless.

Faber Ventilation

Faber is leading the industry in innovation, creating the nation's first and only retractable island range hood. The Vanilla Isola is the latest design, marrying style with function, while boasting features including a powerful CFM motor, LED digital display with touch control and advanced perimetric filter system.

Liebherr

On the heels of its ENERGY STAR[®] Most Efficient 2017 designation, Liebherr will present new wine preservation and refrigeration units including the first integrated model, HW-8000, a 24" pantry-style cabinet, which can hold up to 80 bottles.

Additionally, designed for today's modern kitchen, the new 18-inch built-in wine unit, with matching wine accessory drawer, features TipOpen technology wherein the glass door is gently tapped to open the unit. Ensuring that the ideal air humidity does not escape the cabinet, the unit will self-close if the door is not opened fully within three seconds.

Sharp

Another Architectural Digest Design Show first, Sharp will showcase its Black Stainless Steel Microwave drawer and SuperSteam Oven, together. As the only microwave drawer available in black stainless steel in the U.S., the drawer boasts a low-profile design featuring clean sightlines, hidden control panel, and rich black, finish.

SUPERIORE

Motivated by the feedback from the design community at the 2016 Architectural Digest Design Show, SUPERIORE has launched its new 24" gas range to answer the call of the urban market, who desire performance and style for downsized homes and compact kitchen spaces.

SUPERIORE is also debuting its new 30" dual fuel, self-cleaning range, which features its notable Cool Flow System and customizable "Home Chef" functionality.

"This is, quite possibly our greatest exhibition at the Architectural Digest Design Show. Period," said Steve Terry, SVP-COO, Almo Premium Appliances. He continued, "We're excited at the industry firsts and new offerings from our elite brands, which are sure to have mass appeal to the architect and designer communities, in attendance. Further moved by innovation, performance and quality, we're able to create and distribute products that are haute, yet high functioning; polished, yet performance-driven."
