March 7, 2017 – Iconic Cocktail Vertical Wall Range Hood by Faber will be displayed at the Architectural Digest Show, Booth #271 on March 16-19, 2017, Pier 92 & 94 in NYC.

The Cocktail vertical wall hood adds a touch of beauty to the modern kitchen while powerfully removing contaminants from your kitchen air. The Cocktail is an affordable luxury at \$899. The 300 cfm hood uses Faber's perimetric extraction technology. The front and bottom filters nestle behind an angled 2 layer glass panel, efficiently removing grease from the cooking area.

Equipped with a full line up of features, the cocktail is sure to please. Two-level LED lighting, 30 minute delay shut off and a digital 4-speed LED touch control including a 10 minute intensive speed option are a few of the features which place the Cocktail as a leader in premium wall hood technology. The Cocktail is available to order now in 31" and 36" black glass.

Please visit www.faberonline.com to view Faber's full product line.

ABOUT FABER

Faber the global leader in kitchen ventilation, a part of the \$2.2 Billion Franke Group, Kitchen Systems division, has been producing high-end kitchen range hoods since 1955 in Fabriano, Italy. For almost 60 years Faber has continued to manufacture with attention to detail, engineering excellence and fine European design. From inserts to wall, island and value / designer canopies, there is a style to fit almost every kitchen design.
