## Jan Kath Design presents... Booth #626

New York, NY – March, 2017

“New Year, new carpets! This time of the year, we always get excited for spring and all the great prospects for new colors and designs that linger around throughout winter. We really enjoy the hues of blue of *Boro*, as well as our artistic, re-invented *Erased Heritage* collection. I am positive our customers will feel and see the passion and love that went into the pieces we chose to display at the show.” says Kyle Clarkson from the New York showroom Kyle & Kath.

Jan Kath’s award-winning *Erased Heritage Collection* got tweaked: The new colorways not only pay homage to the traditional Oriental carpet, but also honor the designer’s well-known *Artwork* collection – The result of this delicate marriage are breathtaking patterns, persuasive in form and function.

Jan Kath also just released a new generation of *Boro*-inspired carpets. This enhanced version of his traditional *Boro Collection* surprises with uneven outlines and a masterful, three-dimensional weaving technique that creates the feeling of authenticity and preservation - A showstopper par excellence.
