CONSORT TO LAUNCH CONSORT COLLECTION A 44-PIECE FURNITURE LINE HANDCRAFTED IN THE US

NEW YORK (March 2018) – Consort, the celebrity interior design firm and showroom led by Mat Sanders and Brandon Quattrone, is pleased to announce the launch of Consort Collection, an assortment of handcrafted hardline and softline furniture. This undertaking into furniture is a first under the brand and will be available through the online shop and in the Los Angeles and New York retail stores Summer 2018.

Inspired by the discovery of a leather-bound journal at one of Consort’s favorite spots for vintage in Paris, the collection marries a mystery man’s modern-day Parisian romp with Consort’s undying obsession with French modernism. While each piece in the collection brings to life a page from this anonymous diary, quality and craftsmanship remain at the forefront of the collection’s identity. Each element is made by hand in six-to-eight weeks by leading fabricators across America.

“The three big differentiators in our collection are style, customization, and price point. To celebrate the maker movement, we’ve engaged the country’s premiere fabricators to manufacture the pieces all within the U.S. This also offers us the flexibility to fully customize the pieces to the client’s request,” said Consort Co-Founder Mat Sanders.

Consort Collection features 44-designs of handcrafted furniture, with a full-range of customization options for each style, ranging from \$550 - \$7500. Customizable by-the-inch, the entire collection is available in a range of premium finishes and fabrics for endless modification options. Customers can choose from 24 finishes in Wood, Lacquer, Metal, Plaster, Glass, and Leather to create hundreds of combinations across the range. The Consort label of high grade linens and velvets are available in a breadth of 50 playfully chic hues in both Studio and Premium price levels and furniture may also be ordered COM. From the 44-piece collection, favorites include the Amour Settee, with its heart shaped-back. It is one of those eye-catching statement styles where a simple change to the fabric or material can dramatically

CONSORT

change the piece's mood. Another standout, the Marcel Sofa, offers a balance of comfort, elegance, and timeless yet modern appeal. The sculptural feel of the Petit Side Table series adds a ton of character to a room, featuring a unique texture, available in five plaster finishes. With Consort Collection, designers and stylish design enthusiasts looking for a collection of elevated casual furniture that feels comfortable without sacrificing high-style now have a go-to vendor.

“Since the inception of our interior design firm, we’ve been designing products for our clients and showrooms. This collection reflects a refined vision and cohesive approach to a complete furniture ensemble,” says Sanders.

Preview the Consort Collection at the AD Design Show (March 22-25), High Point Market (April 14-18) and ICFF (May 22-25). Consort is located at 6918 Melrose Avenue in Los Angeles, Monday – Saturday from 10AM to 6PM and 155 Duane Street in New York, NY, Monday – Sunday from 10AM to 6PM.
