

COCOBOLO

CERAMICS ART & DESIGN

Since 2008, Cocobolo has been the specialist in all areas of contemporary ceramic art and design representing some of the field's leading artists. Our curated collection includes decorative objects, furniture, vessels, lighting, tableware, mirrors, custom tiles, bas-reliefs, architectural screens and large-scale sculpture.

Led by Principal Benjamin Wiener from the New York-based gallery, collaborations between our artists and architects, interior designers and collectors have resulted in a range of installations for residential, commercial and hospitality projects around the world. Realizing a project's aesthetic needs, incorporating sculpture in the designed environment and honoring the creative vision of artisans is our continuing mission.

Please contact us for available work or information on commissions, custom fabrication and bespoke design services. We also offer curatorial services for private clients, museums and commercial enterprises looking to enhance their knowledge and insight into contemporary ceramics.

ambition

The word "ambition" is written in a dark, slightly textured ink on a light-colored, speckled surface. The letters are connected in a cursive style. The 'a' is a simple oval. The 'm' has a prominent hump. The 'b' is tall with a loop. The 'i' has a small dot above it. The 't' is tall with a horizontal crossbar. The 'o' is a simple oval. The 'n' has a small hump at the end. The 's' is a simple curve.
