

KRANE HOME - Booth #M1006

Architectural Digest Design Show 2019 Press Release

Krane Home is a line of art, wallpaper, fabric, and home accessories created from paintings by Sharon Lee, fine artist and owner of the company. Each of our patterns is created directly from one of Sharon's multi-media paintings inspired by her Korean heritage.

We will be showing a group of new paintings against a backdrop of our wallpaper. We will also give a sneak peak of our line of giclée art prints and our Spring 2019 textile line, which was created from the original paintings exhibiting at the show, pictured below.
