QUARTZ MASTER INTRODUCES 2019 EUROPEAN COLLECTION

Quartz Master launches a brand new collection at 2019 AD Design Show

BAYONNE, NJ - FEB 2019 - Quartz Master, the leading quartz surface manufacturer, is excited to unveil 2019 European Collection that includes exotic 17 new designs.

The process of engineering Quartz has been around for over 50 years, but only recently has it come into popularity. It's harder, more durable, and much less porous than marble. It has all the characteristics of what consumers are looking for in a countertop, but for years it lacked the beauty of natural stone.

Since inception, Quartz Master has been an innovator in technology and design of quartz surfaces. Acher Cohen, President, and lead designer, is well known for pushing boundaries and expanding the way the world envisions quartz. Quartz Master has the largest collection of marble inspired quartz in the industry. In fact, he invented the design. In May 2011, after 12 months of research, development and many attempts, Cohen introduced the first ever marble inspired design to quartz. And consumers, designers, and fabricator loved it. Cohen is so confident in the quality of his quartz that he offers a lifetime warranty. For the New Year, Cohen gives us 17 new designs featuring 2019 European Collection.

Mr. Acher Cohen will be on hand to answer questions and listen to your suggestions at 2019 AD Design Show. Make sure to stop by the Quartz Master's booth #287
