

FOR IMMEDIATE RELEASE

U-Line Introduces Nugget Ice Collection to Product Line

October 5, 2018 (Milwaukee, WI) - U-Line, the industry leader in premium ice making, refrigeration, and wine preservation products debuts a line of Nugget Ice Machines designed for a wide variety of in-home applications. The new collection features the highest ice production and storage capacities in residential Nugget Ice, industry exclusive ice density adjustability, and full-featured models that include an interior water dispenser & filter.

“Consumers have been looking for more options in the Residential Nugget Ice category,” says David Carr, Director of Product & Marketing for U-Line Corporation. “Working with our sister company, Follett—a world leader in commercial nugget ice for over 50 years, we developed a line of products that offers greater ice production and storage with new features that haven’t been available in the market until now.”

Providing unsurpassed performance with industry exclusive features such as the highest ice production, delivering up to 90 lbs. of ice per day and a storage capacity of 30 lbs. of ice, the U-Line Nugget Ice Machine collection is also the broadest in the industry – including models for indoor, outdoor, and ADA height compliant applications. U-Line’s U-Choose™ ice adjustability offers five levels of ice density from soft and chewable to dense and compact. Premium units in the collection include interior water dispensers and filters. All models can be built-in or used freestanding and are available in stainless steel. Select models can accept custom door panels.

ABOUT U-LINE

For over five decades, U-Line continues to be a leader in innovation, quality, and value in the premium modular refrigeration, ice making, and wine preservation market.

U-Line creates products focused on functionality, style, and inspired innovations – paying close attention to even the smallest details. Applications include residential, outdoor, ADA height compliant, and marine. Complete product categories include Wine Captain® Models, Beverage Centers, Nugget Ice Machines, Clear Ice Machines, Crescent Ice Makers, Glass and Solid Door Refrigerators, Drawer Models, Freezers, and Combo® Models. Our advanced refrigeration systems, large and flexible capacities, and clean integrated look allow you to preserve the right product, in the right place, at the right temperature. Since 2014, U-Line has been part of the Middleby family of brands.

All products are designed, engineered, and assembled in Milwaukee, Wisconsin, USA, and select products are available worldwide.
